R100 SERIES

GRAVITY FEED W/OUT FLOW CONTROL

The R100 Series of gravity feed reservoirs without flow control are ideal for use as make-up or replenishing reservoirs. They can be installed in most cases to serve both as an oil cup to maintain oil level and as an oil gage to provide 360° visual check of fluid level and condition. All reservoirs feature self-closing snap lid filler caps, vented on the vertical plane to minimize the possibility of dust and dirt from entering the reservoir through the vent. Reservoirs can be disassembled for occasional cleaning.

Standard Materials:

- Aluminum construction
- Buna N seals
- Break resistant colorless transparent polymer
- Borosilicate glass for fluid compatibility and thermal shock

Temperature and Pressure Ratings:

- Polymer maximum working temperature up to 140°F (60°C)
- Glass maximum working temperature up to 250°F (121°C)
- Ratings are at atmospheric pressure.
