

Crimper Die Selection

! Use this chart to determine which die(s) you need for your Flexdraulic crimping requirements. Die sizes are listed horizontally across the top of the chart. Hose part numbers are listed vertically on the left of the chart. Die part numbers are located within the chart (where a hose part number and die size intersect).

	Die Size								
	14 mm	16 mm	19 mm	22 mm	25 mm	28 mm	31 mm	36 mm	38 mm
